Good morning Kerry,

I am sorry for the late reply. Our regulations always required body artists to complete and pass an A&P course from an accredited source but if practitioners opted to attend the Quincy Skin course they would have had to apply for a variance from our (BOH). Until an alternative skin course become available, we will require all future practitioners to attend and pass A&P courses. If you have any questions, please let me know.

Thank you;

Subject: Skin Course for Tattoo Artists

Hi Francisco

My name is Kerry Alexander. I'm the Secretary for the Board of Health in Lowell. The Board has asked me to reach out to some Health/Inspectional Services Departments in the area to inquire on their requirements for Body Art Practitioners regarding A&P classes or alternative skin courses. Lowell used to allow practitioners to attend the Quincy Skin Course but as you're probably aware, Quincy ceased holding the class at the start of 2019.

My Board would like to know if Haverhill is aware of an alternative skin class that you may allow your applicants to attend and use for their application, and what your requirements will be for practitioners now that the Skin course has ended.

Any information would be helpful.

Thank you.

Kerry Alexander
